Zoning Commissioner of Baltimore County

Dear Sir:

The owner of the propert located at No. 2046 York Road, desires to divide her propert, into a two lot subdivision. The easternmost lot fronting on York Road, and the westernmost lot fronting on Aylesbury Road. The property is presently zoned BL-CNS fronting on York Road and ML-IM fronting on Aylesbury Road to the west. We are requesting a variance for side yard set backs on the westernmost ML-IM portion which has an existing average width of 59 feet.

The side yard set backs in the existing ML-IM zone are 30 feet which presents a practical difficulty as this requirement would not allow the lot to be improved, rendering it useless for building purposes.

Therefore, we are requesting a side yard variance on the south of ZERO feet in lieu of the required 30 feet and 20 feet on the north in lieu of the required 30 feet.

This will allow the parcel to be improved and used for the purpose for which it is zoned in keeping with the spirit and intent of the existing zoning.

Sincerely yours,

INTER-OFFICE CORRESPONDENCE

May 19, 1989 TO Zoning Advisory Committee

FROM Robert W. Bowling, P.E.

SUBJECT\_\_\_Item #405 PROPERTY OWNER: Contract Purchaser: Vincent F. Pipitone

Legal Owner: Katherine V. Crowther E/W Aylesbury Road, 623' (+ or -) S of Crowther Avenue

LOCATION: 9th Election District DISTRICT:

The Plan for the subject site has been reviewed by Developers Engineering Division and our comments are as follows:

In accordance with Bill No. 56-82, dredging, filling or construction in any wetland is prohibited.

The Developer shall be responsible for damages to the County's facilities, such as water meters, manholes, curbs and gutters and inlets within his subdivision. Occupancy Permits will be withheld until such damages have been corrected.

The Developer's Engineer shall investigate the need and obtain the necessary permits for the facilities serving this site that may require a "Corps of Engineer's Permit", a "Water Resources Permit", a "Water Quality Certification", and any other Federal or State Permits. These lacilities cannot be sent to contract until such permits have been received.

HIGHWAY COMMENTS:

Prior to removal of any existing curb for entrances, the Developer shall obtain a permit from the Bureau of Public Services (887-3321 for commercial or 887-3363 for residential).

The entrance locations are subject to approval by the Bureau of Traffic Engineering.

Entrances shall be a minimum of 24 feet and a maximum of 35 feet wide, shall have 10-foot minimum radii curb returns, shall be located a minimum of 15 feet from any property line, and shall be constructed in accordance with Baltimore County Standards (Details R-32, 1977 Edition), as the Developer's total responsibility.

Crowther Property 05/19/89

STORM DRAINS AND SEDIMENT CONTROL COMMENTS:

The Developer is responsible for the total actual cost of drainage facilities required to carry the storm water run-off through the property to be developed to a suitable outfall. The Developer's cost responsibilities include the acquiring of easements and rights-of-way - both onsite and offsite - and the deeding in fee of said rights-of-way to the County. Preparation of all construction, rights-of-way and easement drawings, engineering and surveys, and payment of all actual construction costs including the County overhead both within and outside the development, are also the responsibilities of the Developer.

The Developer must provide necessary drainage facilities (temporary or permanent) to prevent creating any nuisances or damages to adjacent properties, especially by the concentration of surface waters. Correction of any problem which may result, due to improper grading or improper installation of drainage facilities, would be the full responsibility of the Developer.

Development of this property through stripping, grading and stabilization could result in a sediment pollution problem, damaging private and public holdings downstream of the property. A grading permit is, therefore, necessary for all grading, including the stripping of top soil.

In accordance with Baltimore County Council Grading, Sediment Control and Forest Management Ordinance (Bill No. 33-88), a grading plan shall be approved and a Performance Bond posted prior to issuance of a grading permit. A sediment control plan is required. The number of square feet of land disturbed shall be indicated on the sediment control drawing.

Storm water management drawings will be necessary to be reviewed and approved prior to the recording of any record plat or the issuance of any grading or building permits.
